Professional Summary

A results-driven **.NET Full Stack Developer** with **5+ years** of experience at **Stepping Stone Software Solutions**. Adept at designing, developing, and optimizing robust **web applications** using **ASP.NET MVC, Web API, Entity Framework, and SQL Server**. Strong background in **front-end technologies** such as **Angular** and **Bootstrap**, along with expertise in **database management and performance optimization**. Skilled in **Agile/Scrum methodologies**, problem-solving, and cross-functional collaboration. Passionate about delivering scalable, high-performance solutions that enhance business operations and user experiences. Currently aiming to expand expertise in **cloud technologies (Azure)** and **microservices architecture**.

Certifications

Introduction to MongoDB -- [CERTIFICATE](#)

Certified Scrum Master (CSM) -- [CERTIFICATE](#)

Microsoft Certified: Azure Fundamentals -- [CERTIFICATE](#)

Professional Experience

Project 1: Prajna Schools

Client: Schools

Duration: August 2020 – February 2025

Environment: ASP.NET MVC, Web API, Bootstrap, Entity Framework, SQL Server

Description: A web application designed to enhance educational and administrative management in schools. Includes modules for **student management, faculty management, course scheduling, and communication**.

Key Responsibilities:

User Interface (UI) Design & Development

Designed and implemented intuitive, responsive, and user-friendly UI components using **Bootstrap**.

Developed reusable front-end components to improve maintainability.

Ensured cross-browser compatibility and mobile responsiveness.

API Development & Integration

Developed **RESTful APIs** using **ASP.NET Web API** for seamless data exchange.

Secured API endpoints to handle student records, faculty data, and course schedules.

Integrated third-party APIs for notifications and alerts.

Database Management & Optimization

Designed and optimized **Entity Framework** database schemas for efficient data storage and retrieval.

Created stored procedures, triggers, and indexing strategies to enhance query performance.

Security & Data Integrity

Implemented **authentication and authorization** using **ASP.NET Identity**.

Enforced **encryption and secure coding** practices.

Testing & Quality Assurance

Conducted **unit testing** with xUnit/ NUnit.

Debugged and fixed UI, API, and database issues.

Performance Optimization

Optimized **API response times** using caching strategies.

Implemented **lazy loading and asynchronous data fetching** for better UI performance.

Collaboration & Documentation

Worked with **educators and school administrators** to refine requirements.

Documented technical specifications and trained staff on application usage.

Project 2: Prajna Colleges

Client: Autonomous Colleges

Duration: August 2022 – February 2025

Environment: ASP.NET MVC, Web API, Bootstrap, Entity Framework, SQL Server

Description: Similar to "Prajna Schools," but tailored for **autonomous colleges**, focusing on **academic operations, resource management, and faculty performance tracking**

Key Responsibilities:

Modular and Scalable Component Development

Developed **modular and reusable** components to handle academic workflows efficiently.

Implemented **role-based access control (RBAC)** for secure module access.

Academic Operations & Resource Management

Managed **course registration, attendance tracking, grading systems**.

Integrated **timetable scheduling** for faculty workload optimization.

Faculty Performance Tracking & Evaluation

Developed **faculty evaluation modules** based on student feedback and research contributions.

Automated **performance analytics reporting**.

Communication & Notification Systems

Built **internal messaging** and **email/SMS notification** systems.

Implemented **real-time push notifications** for academic deadlines.

Data Security & Compliance

Applied **data encryption, access control, and audit logging**.

Developed **backup and disaster recovery mechanisms**.

Performance Optimization & Scalability

Improved database indexing and **query performance** for high traffic loads.

Implemented **caching strategies** for faster application response.

Testing & Quality Assurance

Conducted **end-to-end testing** to validate system reliability.

Performed **stress testing** for high-traffic scenarios like exam result publication.

Day-to-Day Activities:

Working on **front-end and back-end development tasks**

Debugging and fixing reported **bugs and performance issues**.

Writing unit tests and ensuring quality assurance.

Optimizing database **queries and indexing strategies**.

Technical Skills:**Front-End Development:**

Proficient in **HTML, CSS, JavaScript, Angular**

Expertise in **Bootstrap** for responsive UI development

Back-End Development:

Strong knowledge of **C# and ASP.NET Core/MVC** for web application development

Expertise in **RESTful Web API development**

Proficient in **Entity Framework and EF Core** for database interactions

Database Management:

SQL Server: Database design, optimization, indexing, and stored procedures.

Tools & Practices:

IDEs: Visual Studio, Visual Studio Code

Version Control: Git, GitHub

Agile/Scrum: Experience in Agile methodologies and sprints

Cloud Platforms: Familiarity with Azure cloud services

Microservices: Basic understanding of microservices architecture using .NET

DevOps: Exposure to Docker for containerization

Soft Skills:

Strong problem-solving and analytical abilities

Excellent written and verbal communication

Effective time management and teamwork skills

Education:

B.Tech (Electrical and Electronics Engineering) – Sri Vasavi Engineering College,
Tadepalligudem, 2019

Diploma (Electrical and Electronics Engineering) – Sri Mullapudi Venkataraya Memorial
Polytechnic College, Tanuku, 2016

SSC- Sri Chaitanya Techno School ,Tanuku - 2013

Strengths

Active Listener

Quick Learner

Adaptable to new technologies

Languages

Telugu (Native)

English (Proficient)

Hindi (Proficient)

Personal Information

Date of Birth: 08th July 1997

Gender: Male

Nationality: Indian

Declaration: I hereby certify that the above information is true and correct to the best of my knowledge and belief.
